ANTI BULLYING

RATIONALE
Our school will provide a positive culture where bullying is not accepted, and in so doing, everyone will have the right to respect from others, the right to learn or to teach, and the right to feel safe and secure in the school environment.

Definition: A person is bullied when they are exposed regularly and over time to negative actions on the part of one or more persons. Bullies are people who deliberately set out to intimidate, exclude, threaten and or hurt others repeatedly. They can operate alone or as a group.

Cyberbullying is bullying that is carried out through an internet service, such as email, chat room, discussion group or instant messaging. It can also include bullying through mobile phone technologies such as short messaging service (SMS). Examples of cyber bullying include teasing, masquerading, spreading rumours online, ending unwanted messages, or defamation.

AIMS

- To define and develop an understanding of what bullying is and is not.

Early Intervention:
- Encourage students to report bullying incidents upon themselves or witnessed upon another child.
